January 24, 2022

Hello:

A case of COVID-19 has been identified in the following classes on **Wednesday, January 19:**

Class	Teacher	Period
PAA 9	Jon Soroka	1
9C	Connie Dennis	Advisory
ELA 9	Taylor Frei	2
Physical Education 9	Taylor Frei	3
Mathematics 9	Jill Back	4
Social 9	Jill Back	5

Your child may have been exposed and is therefore considered a **close contact** for 10 days from this notification. Students should not attend school if feeling unwell or showing any symptoms of COVID-19. As a potential close contact, the Saskatchewan Health Authority (SHA) strongly recommends your child(ren) take a rapid antigen self-test, which are [readily available](#) to families across the province.

The [Public Health Order](#) permits students who are close contacts to continue to attend school if they do not display any symptoms regardless of vaccination status. Unvaccinated students are required to self-isolate at all other times other than when at school (or on the bus to/from school) or childcare/daycare.

The requirements for close contacts are outlined in the graphic below:

If you require additional support related to questions about self-isolation requirements, please contact Healthline at 811. The school is not able to provide additional support related to contact tracing and self-isolation requirements as the case in question has been identified by a parent or staff member and not by the SHA.

More Information for families on close contacts can be found here: saskatchewan.ca/COVID-19.

Thank you for your continued partnership as we work to keep schools/childcare facilities healthy and safe for students and staff.

Respectfully,

Seth Neuls
Principal

Saskatchewan Schools: Student Close Contact Protocol

Province-wide mask mandate applies to all students.
